Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner found the applicant's arguments to be persuasive pertaining to independent claim 6, however, it was determined that independent claims 1 and 11 did not contain all the limitations as allowable independent claim 6. The examiner contacted the applicant's representative and an agreement could not be reached based on the argument of "receiving a security response when a copy of the software is removed from the receiving device."
